1. The information contained in this Facilitator's guide is distributed and sold as a guide and for informational purposes only. Safetycare makes no representation or warranty as to the compliance of this program with any and all applicable laws of the purchaser's jurisdiction.

2. Safetycare's liability for any damages to the purchaser or to any other party shall not exceed the amount paid by the purchaser for the guide. In no event shall Safetycare be responsible for any indirect or consequential damages or loss of profits, even if Safetycare has been advised of the possibility of such damage. Some provinces/states do not allow the limitations or exclusion of liability for incidental or consequential damages, so the above limitations or exclusions may not apply to the purchaser.

3. This Facilitator's Guide is supplied as part of a Safetycare subscription service. This guide is only to be used during a valid subscription period. Where a Safetycare subscription is not valid, this guide may not be used.
1. Which of these is **not** a component that makes up a confined space?

   a) It must be large enough for a person to enter  
   b) It must have a limited or restricted means of entry or exit  
   c) It must not be primarily intended or designed for human occupancy  
   d) It must have rodents or insects inhabiting it

2. Which of these cannot be classified as a confined space?

   a) Tank  
   b) Vat  
   c) Ducts  
   d) Residential House

3. When does entry into a confined space require a permit?

   a) Always  
   b) Never  
   c) Whenever you have time  
   d) Only if the confined space is smaller than 1m²

4. What are some things a confined space entry permit will cover?

   a) A description of the work to be performed  
   b) The location of the confined space  
   c) Requirements for atmospheric testing  
   d) All of the above
5. What are some reasons that accidents occur in confined spaces?
   a) Inexperience
   b) Taking short cuts
   c) Responding to an accident that has already occurred
   d) All of the above

6. Can an oxygen enriched atmosphere be hazardous?
   a) Yes
   b) No
   c) Yes, only if there is a fire risk
   d) None of the above

7. One of the most dangerous risks associated with gases is ______________ caused by reduction of oxygen.
   a) Asphyxiation
   b) Fires
   c) Manual handling injuries
   d) Broken bones

8. Approximately how much oxygen is in the air we breathe?
   a) 99%
   b) 90%
   c) 21%
   d) 1%

9. If you are familiar with the confined space you are about to enter, are you able to enter without a permit?
   a) Yes, if the task will take less than 2 minutes
   b) Yes, if you have worked in the confined space more than 3 times
   c) No, it is never acceptable to enter a confined space without the appropriate permit
   d) Yes

10. What is a common way of decontaminating a confined space atmosphere?
    a) Purging
    b) Washing with water
    c) There is no way
    d) Filling with water
