1. The information contained in this Facilitator’s guide is distributed and sold as a guide and for informational purposes only. Safetycare makes no representation or warranty as to the compliance of this program with any and all applicable laws of the purchaser’s jurisdiction.

2. Safetycare’s liability for any damages to the purchaser or to any other party shall not exceed the amount paid by the purchaser for the guide. In no event shall Safetycare be responsible for any indirect or consequential damages or loss of profits, even if Safetycare has been advised of the possibility of such damage. Some provinces/states do not allow the limitations or exclusion of liability for incidental or consequential damages, so the above limitations or exclusions may not apply to the purchaser.

3. This Facilitator’s Guide is supplied as part of a Safetycare subscription service. This guide is only to be used during a valid subscription period. Where a Safetycare subscription is not valid, this guide may not be used.

1. A _________ is anything that has the potential to cause an accident, injury, illness or disease.
   a) Hazard
   b) Risk
   c) Policy
   d) Accident

2. A _________ is the likelihood that a specific hazard will actually result in an accident, injury, illness or disease occurring.
   a) Hazard
   b) Fine
   c) Risk
   d) Audit

3. What is the first step of a successful Risk Assessment?
   a) Evaluate all the risks
   b) Decide the possible consequences of hazards present
   c) Identify all the hazards
   d) Write a report
4. Which of these are examples of obvious hazards?
   a) Untidy work areas
   b) Blind corners
   c) Slippery floors
   d) All of these answers

5. The identification of hazards can be aided by reference to Safety Data
   a) Cones
   b) Sheets
   c) Machines
   d) Bases

6. Risk Assessment evaluations can be based on _____________
   a) Industry standards
   b) Regulations
   c) Established safe work procedures
   d) All of these answers

7. The ultimate control measure is __________________________
   a) Elimination
   b) PPE
   c) Substitution
   d) Administrative Controls

8. Which of these is an example of the elimination control measure?
   a) Putting more money into workplace safety
   b) Replacing a manual handling task by using a mechanical lifting device
   c) Wearing PPE
   d) All of the above
9. Which of these is **not** an example of an administrative control?

a) Monitoring of contaminant levels  
b) The placement of warning signs and symbols  
c) Establishing procedures for the maintenance of plant and equipment  
d) Plumbing

10. In evaluating any hazard, we must first ask: is the risk _____, and do we need to control it?

a) Acceptable  
b) Risky  
c) Objective  
d) Airborne
